INTRODUCTION

The Tennessee State Library & Archives subscribes to *Bibliostat™ Collect*, a Web-based product that facilitates the submission of statistical information by each public library in Tennessee.

A reduced-size copy of the form, instructions and definitions may be found in the Appendix.

The data collected conform to the national data format with definitions created by the Public Library Statistics Cooperative (PLSC), a federally-funded program coordinated by the Institute of Museum and Library Services, together with the Census Bureau, to collect and publish accurate, consistent and comparable public library statistics annually from each state.

Since IMLS and the Census Bureau have advanced the reporting and verification cycle to provide more timely data, the libraries' figures are run through the edit checks provided by the PLSC/Census WebPlus software prior to this publication. This change in procedure has resulted in some corrections, and thus better published data.

Again this year the presentation of these figures would not be possible without the collection and development work of the local library directors and their treasurers or bookkeepers along with the regional data coordinators who check and enter the data for their libraries.

All persons in the state are included within the service area of a full-service library and thus the population of each county is assigned to one or more full-service library. The population figures for the full-service libraries reflect the "Official Public Library Service Area" population submitted to each library board in the summer of 2010 for review and adoption. All legally established public libraries, as defined in the Tennessee Minimum Standards for Non-Metropolitan Libraries, Revised 2003, are assigned an official service area population. Information about the population assignments can be obtained upon request at the regional libraries.

Section I: Income. This section contains total local, state, federal, other and capital income for each library system. Population figures and per capita data are also included in this section.

Section II: Expenditures. This section contains operating and capital expenditures for each library system. Population figures and per capita data are also included in this section.

Section III: Staff and Service Hours. This section contains a breakdown of library staff in FTE's and the total annual service hours per year for each library system.

Section IV: Services. This section contains service information including registered borrowers, annual attendance, circulation, reference, programs and program attendance for each library system.

Section V: Collection (there are two parts to this section). This section contains the collection materials breakdown for each library system. Each type of material shows the number of local and regionally owned items separately. Collection counts for the Regional E-book and Audiobook Download System (R.E.A.D.S) appear in the totals for "Regional Other" materials. Due to the large scope of information in this section, it was separated into two parts (I & II). Part I covers books, audio, and video materials. Part II covers other and total materials. Serial materials and Interlibrary Loan information is also included in Part II. The square footage for each library building is included in both parts of this report.

Section VI: Technology. This new section contains information about the number of computers and internet users, as well as interlibrary loan data.

Section VII: Miscellaneous. This section contains Friends of the Library data and Tennessee Library Card Membership.

Section VIII: Individual Outlet Statistics. This section contains information about individual library outlets, including their square footage, staffing, yearly service hours, attendance, circulation and collection. The listing of branch libraries, bookmobiles and other types of library outlets is found in this section.

Additional Notes:

Metropolitan and Independent libraries are not a part of a regional library system. There are separate headings for both Metro and Independent libraries within each section.

General Instructions

Please read the following instructions carefully and answer all questions applicable to your library. Please enter all text-based responses in all CAPS format. Mathematical totals occur automatically in the appropriate fields by the Bibliostat Collect software, so it is not necessary for you to enter calculated totals. **Please do not leave any questions blank. Either report an actual number or:**

- If you can estimate the answer to a question for which you do not have an exact figure, please do so and include a state note explaining that the figure is an estimate.
- If a question is applicable but your library had a “zero” or “none” to report for the FY, use “0”.

If you need to leave a “post-it” note for the regional library regarding a data question, make sure you do so under the “STATE” heading, not the Local heading. Local notes are for your in house use and will not be readable by regional or state administrators.

Library systems with branches or other service outlets should complete Parts I-II with data from the entire system, combining statistics for all service outlets. Individual library statistics for each branch - including the main library - or other service outlet should be separated out in the branches/outlets section of the data collection form. The Library Statistics Coordinator at the State Library, along with your Regional Library contacts, wish to assist you by answering your questions and to offer whatever help you may need in completing your report. Please call 615-532-4601 to speak with Genny Carter, State Data Coordinator, if you need further assistance than your regional library can provide.

Line-by-line Instructions

PART I. GENERAL INFORMATION

Please review the pre-filled data in #s **1.1-1.18** regarding Library Director, Official Library Name, Mailing Address, Street Address, Phone (and 2nd phone if applicable), Director’s Fax, Director’s Email, Library Webpage, and Accessible Hours to make sure the information is up to date. If changes/updates are necessary, please notify the State Library. Please note items 1.16 – 1.18 will be provided by the State Library.

Library Hours – Please report this information in **Part XII**: System Data Form. Bibliostat will push your answers to this section.

Library Governance – Please check the type of legally established governance your library has and check all that apply if more than one is applicable.

Library Structure – If your library is a single library reporting directly to a library board, please indicate this by entering “**T**” in the item **1.29**. If your library is a main library with one or more branch libraries and the entire system reports to a single board, please indicate this by entering “**S**” in item **1.30**. If you enter “**S**” in **1.30**, please enter the total number of branches included in the library system in item **1.32**. Branch libraries are library outlets which have all of the following: 1) separate quarters; 2) permanent paid staff, 3) organized basic collection of books, 4) regularly scheduled hours open to the public, 5) administered by the central or main library, and 6) do not report directly to a board

Legal Service Area Boundary Change Note: Changes are likely to result, for example, when a municipality annexes land, when one municipality in a county becomes either an independent city or its own county necessitating its exclusion from the first county’s geography, or when an administrative entity contracts to provide public library service for some additional geographic area other than the geographical area for which it was established (e.g., a municipal library contracts to serve county residents). **Answer the**

following (Y)es or (N)o: Did the administrative entity's legal service area boundaries changes since last year? Y __ N __

Total number of registered borrowers. A registered borrower is a library user who has applied for and received an identification number or card from the public library that has established conditions under which the user may borrow library materials and gain access to other library resources. (Output Measures for Public Libraries, 2nd Edition.) NOTE: Files should have been purged within the past three (3) years. (Please estimate if no exact count and enter a state note explaining the figure is an estimate.)

- Adult borrowers are **over 14** years of age
- Juvenile borrowers are **under 14** years of age

PART II: LIBRARY STAFF

Hours Paid converted to Full-Time Equivalents (FTE's) - 40 hrs/week x 52 wks = 2080 hrs/yr = 1 FTE. Report as of 06/30/11 and include unfilled positions if a search was underway at that time. Divide by 2080 to get FTE (Round to 2 decimal places).

Librarians with Master's Degree (ALA accredited MLS or MSIS) from ALA accredited program of library and information studies.

Other employees holding the title of Librarian who do work that requires professional training and skill in the theoretical or scientific aspects of library work, or both, as distinct from its mechanical or clerical aspect. This would include, but is not limited to, graduates of the state sponsored Public Library Management Institute and any others who hold the title of Librarian, Manager, Director, Administrator, Head Librarian.

Other paid library staff (except plant operations, security, custodial, and maintenance). This could include circulation clerks, library assistants, etc.

All staff paid from the library budget that perform plant operations, security, custodial or maintenance work

Total FTEs – calculated automatically

Total # Volunteers (not FTE): Enter unpaid persons who have given time during the year for advisory board, storytellers, book sale, operations, fundraising, computer, and any other work. Count each person only once, even if multiple duties were performed.

Do you have a paid Children's and/or Young Adult Services Librarian? Enter either Y for Yes or N for No.

PART III: LIBRARY COLLECTION

Please refer to ending inventory on last year's report and use the **same figures** for beginning inventory on this year's.

Print Materials - PLCS guidelines - Report a single figure that includes both of the following:

1. Books in print. Books are non-serial printed publications (including music and maps) that are bound in hard or soft covers, or in loose-leaf format. Include non-serial government documents.

Report the number of physical units, including duplicates. For smaller libraries, if volume data are not available, count the number of titles. Books packaged together as a unit (e.g. a 2-volume set) and checked out as a unit are counted as one physical unit.

2. Serial back files in print. Serials are publications issued in successive parts, usually at regular intervals that are intended to be continued indefinitely. Serials include periodicals (magazines); newspapers; annuals (reports, yearbooks, etc); journals, memoirs, proceedings and transactions of societies; and numbered monographic series. Government documents and reference tools are often issued as serials. Except for the current volume, count unbound serials as a volume when the library has at least half of the issues in a publisher's volume. Report the number of physical units, including duplicates. For smaller libraries, if volume data are not available, count the number of titles. Serials packaged together as a unit (e.g. a 2-volume serial monograph) and checked out as a unit are counted as one physical unit.

Electronic Books (E-books) – Def: E-books are digital documents (including those digitized by the library), licensed or not, where searchable text is prevalent, and which can be seen in analogy to a printed book (monograph). Include non-serial government documents. E-books are loaned to users on portable devices (e-book readers) or by transmitting the contents to the user's personal computer for a limited time. Include e-books held locally and remote e-books for which permanent or temporary access rights have been acquired. Report the number of physical units or electronic units, including duplicates, for all outlets. For smaller libraries, if volume data are not available, count the number of titles. E-books packaged together as a unit (e.g. multiple titles on a single e-book reader) and checked out as a unit are counted as one physical unit. Note: E-Book titles for which your library has access through the READS system should be reported under Other. Please enter "RA" in the regional e-book count so that your regional office can provide an accurate count of the e-book titles for FY 10-11.

Audio Materials – Physical Units - Def: These are materials circulated in a fixed, physical format on which sounds (only) are stored (recorded) and that can be reproduced (played back) mechanically, electronically, or both. Include records, audiocassettes, audio cartridges, audio discs (including audio-CD-ROMs), audio-reels, talking books, and other sound recordings stored in a fixed, physical format. Do not include downloadable electronic audio files.

Report the number of units, including duplicates. Items packaged together as a unit (e.g. two audiocassettes for one recorded book) and checked out as a unit are counted as one physical unit.

Audio Materials – Downloadable Titles - Def: These are downloadable electronic files on which sounds (only) are stored (recorded) and that can be reproduced (played back) electronically.

Report the number of titles. Report only items the library has selected as part of the collection and made accessible through the library's Online Public Access Catalog (OPAC) or through a physical library catalog.

Video Materials – Physical Units - Def: These are materials circulated in a fixed, physical format on which moving pictures are recorded, with or without sound. Electronic playback reproduces pictures, with or without sound, using a television receiver or computer monitor. Video formats may include tape, DVD and CD-ROM. Do not include downloadable electronic video files.

Report the number of units, including duplicates. Items packaged together as a unit (e.g. two audiocassettes for one recorded book) and checked out as a unit are counted as one physical unit.

Video Materials – Downloadable Titles - Def: These are downloadable electronic files on which moving pictures are recorded, with or without sound. Electronic playback reproduces pictures, with or without sound, using a television receiver, computer monitor or video-enabled mobile device.

Report the number of titles. Report only items the library has selected as part of the collection and made accessible through the library's Online Public Access Catalog (OPAC) or through a physical library catalog.

Microforms - Def: A photographic reproduction of textual, tabular, or graphic material reduced in size so that it can normally be used only with magnification. The two main types of microforms are micro reproductions on transparent material, including roll microfilm aperture cards, microfiche, and ultra fiche, and reproductions on opaque material. Exclude current serial subscriptions. Count rolls of film. Estimate pieces of fiche and enter state note that there are estimates.

Films - Def: (also "motion picture"): a length of film, with or without recorded sound, bearing a sequence of images that create the illusion of movement when projected in rapid succession (usually 18 or 24 frames per second). Motion pictures are produced in a variety of sizes: 8, 16, 35, 55, and 70mm & a variety of formats: cartridge, cassette, loop, reel).

Other Materials - Def: Include all materials not already reported. Library systems: When counting READS, count only one time at the system level. Do not count READS titles for each branch.

Total All Materials Locally Owned - Def: Total of all (a.) rows of Locally owned lines (this will be calculated automatically).

Total All Materials Regionally Owned - Def: Total of all (b.) rows of Regionally owned (this will be calculated automatically).

Databases - Def: Report the number of **licensed** databases (including locally mounted or remote, full-text or not) for which temporary or permanent access rights have **been acquired through payment by the library, or by formal agreement with the State Library or a cooperative agreement within the state or region. Enter such databases as regionally owned.** A database is a collection of electronically stored data or unit records (facts, bibliographic data, abstracts, texts) with a common user interface and software for the retrieval and manipulation of the data. Note: The data or records are usually collected with a particular intent and relate to a defined topic. A database may be issued on CD-ROM, diskette, or other direct access method, or as a computer file accessed via dial-up methods or via the Internet. Subscriptions to individual electronic serial titles are reported under **Current Electronic Serial Subscriptions**. Each database is counted individually even if access to several databases is reported through the same vendor interface.

Current Serial Subscriptions - Def: Report the number of current print serial subscriptions, including duplicates, for all outlets. Examples of serials are periodicals (magazines), newspapers, annuals, some government documents, some reference tools, and numbered monograph series.

PART IV: LIBRARY SERVICE

Service Hours - Take a typical workweek from Sunday through Saturday in which the library is open its regular hours, containing no holidays. Multiply the total service hours of that week by 52 for the annual service hours. Minor variations in scheduled public service hours need not be included; however, extensive hours closed to the public due to natural disasters or other events should be excluded even if the staff is scheduled to work. For Systems: Using the above method, identify annual service hours for each branch and bookmobile and add to main library's annual service hours total. This new total reflects all service hours in the system. Enter individual branch service hours in PART XII.

Annual attendance at library - If an actual count of visits is not available; count the total number of persons entering the library per typical week including persons attending activities, meetings, and persons requiring no staff services. Multiply this figure by 52 to get annual attendance. For Systems: Include attendance at main library, branches and bookmobiles. Enter individual branch attendance in PART XII.

Annual Reference Transactions Completed - If an actual count of reference transactions is not available, count the total reference transactions per typical week and multiply this figure by 52 to get annual transactions. A reference transaction is an information contact which involves the knowledge, use, recommendations, interpretation, or instruction in the use of one or more information sources by a member of the library staff. The term includes information and referral service. Information sources include printed and non-printed materials, machine-readable databases (including computer-assisted instruction), catalogs and other holdings records, and through communication or referral, other libraries and institutions and persons both inside and outside the library. When a staff member utilizes information gained from previous use of information sources to answer a question, report as a reference transaction even if the source is not consulted again during this transaction. The request may come in person, by phone, by fax, mail, or by electronic mail from an adult, a young adult, or a child. **NOTE:** It is essential that libraries do not include directional transactions in the report of reference transactions. A directional transaction is an information contact which facilitates the use of the library in which the contact occurs and which does NOT involve the knowledge, use, recommendation, interpretation, or instruction in the use of any information sources other than those which describe that library, such as schedules, floor plans, handbooks, and policy statements. Examples of directional transactions include giving instruction or locating, within the library, staff, library users, or physical features, etc., and giving assistance of a non-bibliographic nature with machines. For Systems: include reference transactions at main library, branches and bookmobiles.

Annual circulation transactions - The lending of library materials to registered library borrowers for a specified period of time and under clearly identified rules and regulations. This activity includes charging, either manually or electronically, and also renewals, each of which is reported as a circulation transaction. Do not count in-house use of library materials. For juvenile circulation count the total annual circulation of all children's materials in all formats to all users. (If records by age are not kept, use estimates based on percentages of typical week. Indicate if records or estimates are used). Suggestion: use monthly figures previously sent to region, so these numbers agree. For Systems: include circulation at main library, branches and bookmobiles. Enter individual branch circulation in PART XI.

Total number of programs/presentations made to groups - An information contact planned in advance in which a staff member or person invited by a staff member provides information intended for a number of persons. Information service to groups may be either bibliographic instruction or library use presentations, or it may be cultural, recreational, or educational programs or presentations. Programs or presentations both on and off the library premises are included, as long as the library sponsors them. Does not include meetings sponsored by other groups using library meeting rooms. If programs are offered as a series, count each program in the series. For example, a film series offered once a week for eight weeks should be counted as eight programs. For Systems: include total at main library, branches and bookmobiles.

Total Attendance at programs/presentations - Headcount at programs counted above. Total attendance at children's programs includes any adults attending children's program. For Systems: include total at main library, branches and bookmobiles.

Total number of children participating in 2010 Summer Reading Program - Use figures from summer of 2010, not 2011. For Systems: include total at main library, branches and bookmobiles.

PART V: RESOURCE SHARING

INTERLIBRARY LOANS - An item of library material, or a copy of the material, made available by one library to another upon request. It includes both the lending and borrowing. The libraries involved in interlibrary loan are **NOT** under the same library administration (i.e. **not** affiliated branches). For Systems: Report total of loans going to or coming from libraries outside the system (not within system).

• **ILL loans as borrower:** Actual items **received from** other libraries and from Tennessee Resource Center.

- **ILL loans as lender:** Actual items **provided to** other libraries.

Reciprocal Borrowing Agreements - Reciprocal borrowing is a program in which libraries mutually agree to circulate materials to the patrons who hold a valid library card from other libraries participating in the program. Reciprocal borrowing allows walk-in library users to check out materials free of charge from any participating library. In Tennessee, the Tennessee Library Card (TLC) program is a statewide reciprocal borrowing program available to public libraries and their users.

- Answer Y or N if your library has any reciprocal borrowing agreements with other libraries.
- If answer to B is Yes, then list which libraries.

PART VI: FACILITY

Total number of square feet in library facility/facilities – Provide the area, in square feet, of the public library outlet (central/main library or branch). This is the area on all floors enclosed by the outer walls of the library outlet. Include all areas occupied by the library outlet, including those areas off-limits to the public. For Systems: Report total of square feet of main library and branches. Enter individual branch square footage in PART XII. Do not record square footage of bookmobiles. Bibliostat will push this data into the main survey.

Total number of bookmobiles - A bookmobile must meet all of the following: 1. A truck or van that carries an organized collection of library materials; 2. Paid staff; 3. Regularly scheduled hours (bookmobile stops) for being open to the public. Count the number of vehicles in use, not the number of stops the vehicle makes.

PART VII: MISCELLANEOUS INFORMATION

Do you have a Friends Organization for your library? Enter Y for Yes or N for No. If answer is Yes, please proceed to enter # of members, date officers changes, President's name, address, and telephone number information in the spaces provided. Answer Y for Yes or N for No if the Friends group is designated as a 501-c-3 for receiving deductible donations.

Organized foundation for funding – Enter Y for Yes or N for No if your library has an organized foundation for fund-raising, separate from the Library Board.

Foundation designation - Enter Y for Yes or N for No if the foundation is designated as a 501-c-3 for receiving deductible donations.

PART VIII: ELECTRONIC TECHNOLOGY

Automation information – Please answer the question with a Y for Yes or N for No. If the answer is Y for Yes, please enter the requested information in the space provided below the question.

Access to the Internet – Select the type of Internet connection that your library has. If the library or library system uses more than one type of internet connection, select each type of connection that applies: Dialup, DSL, Cable, Fiber, T-1, T-2, or T-3, Satellite or Other. If your library does not have Internet access, select "No Internet Access," then go to 8.7.

Staff Internet Computers – Enter number of computers with Internet access used by Staff ONLY.

Public Internet Computers - Enter number of computers with Internet access used by the General Public.

Number of Uses (Sessions) of Public Internet Computers Per Year - Report the total number of uses (sessions) for Internet computers in the library during the last year. If the computer is used for multiple purposes (Internet access, word-processing, OPAC, etc.) and Internet uses (sessions) cannot be isolated, report all usage. A typical week or other reliable estimate may be used to determine the annual number. Sign-up forms or Web-log tracking software also may provide a reliable count of uses (sessions). Note: The number of uses (sessions) may be counted manually, using registration logs. Count each use (session) for public internet computers, regardless of the amount of time spent on the computer. A use (session) on the library's public internet computer(s) three times a year would count as three uses (sessions). Software such as "Historian" can also be used to track the number of uses (sessions) at each public internet computer. If the data element is collected as a weekly figure, multiply that figure by 52 to annualize it.

Is your library part of a consortium? Enter Y for Yes or N for No if your library is part of a group of libraries with different governing bodies that share electronic resources through a contractual or other formal agreement, not including service from a regional library or provided by the state. This may include academic, special and school libraries. If the answer is Y for Yes, please enter the information requested in the space below.

PART IX: LIBRARY INCOME BY SOURCE

This section should contain information provided by the library Board Treasurer or Bookkeeper. Do not include the value of any contributed or in-kind services for the value of gifts, donations, fines and fees in appropriations.

Appropriations by County – Report all tax and non-taxed receipts allocated by the county available for expenditure by the public library. Include Social Security and Medicare contributions paid by the local government on behalf of library staff as salary/benefits appropriations, even if not listed as a library appropriation. Do not include appropriations for one-time expenses of capital items.

Appropriations by City/Town – Report all tax and non-taxed receipts allocated by the community/city available for expenditure by the public library. Include Social Security and Medicare contributions paid by the local government on behalf of library staff as salary/benefits appropriations, even if not listed as a library appropriation. If more than one city appropriates money to support the library, please report the appropriation of each. Do not include appropriations for capital items or other one-time expenditures. Use lines 9.2 to include multiple city/town sources of appropriations. 9.4 will automatically calculate the total for all cities/towns.

Total Local Revenue (Operating Appropriations) (all public funds) – This will be automatically calculated to add items 9.3 of the repeating group. This total should NOT include gifts, fines, donations or fees.

Total State Revenue - These are all funds distributed directly (not via the regional library) to public libraries by state government for expenditure by the public libraries, except for federal money distributed by the state. This includes funds from sources such as penal fines, license fees, and mineral rights.

Total LSTA (Federal Revenue) Funds - Report any LSTA funds received from the State Library and Archives (not via the Regional Library). This includes direct service grants, technology grants, and all other LSTA allocations. (These funds are not included when determining if the library meets Maintenance of Effort requirements.)

Other Income - (These funds are not included when determining if the library meets Maintenance of Effort requirements.) Report all other operating (not capital) income not reported in items above. Include monetary gifts and donations, interest, fines, and fees. Do not include the value of any contributed services or the value of any non-monetary gifts and donations. Items 9.8-9.16 provide for detailed breakdowns of other income. 9.17 will automatically total items.

Total Other Income (non-appropriations) – This is a combined total of items 9.7 and 9.17. It will be automatically calculated.

Total Revenue – This is the total revenue/income from all sources. This will be automatically calculated.

PART X: OPERATING EXPENDITURES

Operating Expenditures - Operating expenditures are the current and recurrent costs necessary to support the provision of library services. Significant costs, especially benefits (including Social Security and Medicare contributions) and salaries, that are paid by other taxing agencies (government agencies with the authority to levy taxes) “on behalf of” the library should be included if the information is available to the library. Only such funds that are supported by expenditure documents (such as invoices, contracts, payroll records, etc.) at the point of disbursement should be included. Estimated costs are not included.

NOTE: There are two lines provided to record expenses: Line a is for those paid from funds obtained through appropriations. Line b “From Other Income” is for non-capital expenses paid from any source except appropriations. Line b includes expenditures of memorials, gift funds and grant funds or one-time expenditures from fines and fees.

Salaries and Wages – Enter salaries and wages paid to any and all employees before deductions excluding any employee benefits. Include wages paid for plant, security or maintenance staff.

Employee Benefits - The benefits outside of salary and wages paid and accruing to any and all employees (including plant operations, security, and maintenance staff) regardless of whether the benefits or equivalent cash options are available to all employees. Include amounts spent by the reporting unit for direct, paid employee benefits **including Social Security retirement, Medicare**, disability insurance, life insurance, unemployment compensation, workers’ compensation, tuition, and housing benefits. *No one should have zero (0) benefits, since employers pay for Social Security and Medicare.

Total Staff Expenditures – This will be automatically calculated.

Expenditures of Materials - Include **all** expenditures for materials purchased or leased for use by the public.

Print Materials - Report all operating expenditures for the following print materials: Books, serial back files, current serial subscriptions, government documents, and any other print acquisitions.

Electronic Materials - Report all operating expenditures for electronic (digital) materials. Types include e-books, e-serials (including journals), government documents, databases (including locally mounted, full-text or not), electronic files, reference tools, scores, maps, or pictures in electronic or digital format, including materials digitized by the library. Electronic materials can be distributed on magnetic tape, diskettes, computer software, CD-ROM, or other portable digital carrier, and can be accessed via a computer, via access to the Internet, or by using an e-book reader. Include expenditures for materials held locally and for remote electronic materials for which permanent or temporary access rights have been acquired. Include expenditures for database licenses. (Note: Based on ISO 2789 definition.)

Other Materials – Report all operating expenditures for audio, videos, filmstrips, microform, DVD, and materials in new forms, etc.)

Total Expenditures for Materials – This will be automatically calculated.

All Other Operating Expenditures - Include all operating expenditures other than those reported above. Summer Reading program materials; expenses such as binding, supplies, repair or replacement of existing

furnishings; and costs of computer hardware and software used to support library operations or to link to external networks, including the Internet. Report contracts for services, such as costs of operating and maintaining physical facilities, and fees paid to a consultant, auditor, architect, attorney, etc.

Total Operating Expenditures - This will be automatically calculated.

PART XI: REVENUE AND EXPENDITURES

Capital Revenue and Expenditures – Note: the amounts reported for Total Capital Revenue and Total Capital Expenditures are not expected to be equal.

Total Local Government (city/county appropriation) Capital Revenue - Report all local government (city or county) funds designated by the community, district or region and available to the public library for the purpose of major capital expenditures, except for state and/or federal money distributed by the local government. (These funds are not included when determining if the library meets Maintenance of Effort requirements.)

Total State Government Capital Revenue - Report all funds distributed to the public libraries by state government for expenditure by the public libraries for the purpose of major capital expenditures, except for federal money distributed by the state. (These funds are not included when determining if the library meets Maintenance of Effort requirements.)

Total Federal Government Capital Revenue - Report federal governmental funds, including federal funds distributed by the state or locality, and grants and aid, received by the library for the purpose of major capital expenditures. (These funds are not included when determining if the library meets Maintenance of Effort requirements.)

Total Other Capital Revenue - Report private (non-governmental funds), including grants received by the library for the purpose of major capital expenditures. (These funds are not included when determining if the library meets Maintenance of Effort requirements.)

Total Capital Revenue - This is the sum of Local, State, Federal and Other revenue. (These funds are not included when determining if the library meets Maintenance of Effort requirements.) This will be automatically calculated.

Capital Expenditures - Report major capital expenditures (the acquisition of or additions to fixed assets). Examples include expenditures for (a) site acquisitions; (b) new buildings; (c) additions to or renovation of library buildings; (d) furnishings, equipment, and initial book stock for new buildings, building additions or building renovations; (e) library automation systems; (f) new vehicles; and (g) other one-time major projects. Include federal, state, local or other revenue used for major capital expenditures. Only funds that are supported by expenditure documents (e.g., invoices, contracts, payroll records, etc.) at the point of disbursement should be included. Estimated costs are not included. Exclude expenditures for replacement and repair of existing furnishings and equipment, regular purchases of library materials, and investments for capital appreciation. Exclude contributions to endowments, or revenue passed through to another agency (e.g., fines). Funds transferred from one public library to another public library should be reported by only one of the public libraries.

PART XII: SYSTEM DATA FORM (PLEASE FILL THIS OUT IN ITS ENTIRETY, EVEN IF IT DUPLICATES INFORMATION PREVIOUSLY REPORTED.)

The instructions for section XII are fairly simple. For **each separate facility** (main, branch, or bookmobile) – enter the total for each of the following items:

- Square Footage (omit for bookmobiles)
- Total Staff FTE
- Annual Public Service Hours
- Number of Weeks the Library is Open
- Annual Attendance
- Annual Circulation
- Total Collection
